Activity - 2

1) CCTV with salt & pepper

Technique : Median Filter

Reason : Removes black & white dots

2) Satellite Image

Technique : Gaussian Filter

Reason : Smooths random gaussian noise

3) Medical X-ray

Technique : Bilateral Filter

Reason : Reduces noose while preserving edges

4) Scanned Document

Technique : Median Filter

Reason : Remove scattered dots & improve text readability

5) Low light

Technique : Non-local denoising

Reason : Reduces grain by comparing similar image

6) Foggy Road Image

Technique : Contrast streching

Reason : Expands the intensity range to improve quality

1) Underwater Image

Technique: Histogram equalization

Reason: Improve contrast & make image

2) Chest X-Ray

Technique: Histogram equalization

Reason: Enhances contrast btw tissues & organs

3) Night-Time

Technique: Gamma correction

Reason: Adjust brightness to reveal details

4) Gray Scale Image

Technique: Contrast stretching

Reason: Spreads pixel intensities across a wider range for better contrast
